Item	Standard Operating Guidelines	Difference
1. Sample Size	1.5%	-
2. Frequency	9-monthly	18-monthly (1)
3. Sampling performed by AMF?	Yes	-
4. Sampling method	Multiple of fixed number of HHs visited per village selected	-
5. Proportion of spares provided	30%	50% (2)
6. Re-visit data	5%	-
7. 2 nd entry	6% if paper-based, N/A if electronic data collection	-
8. Operational reporting	Yes	-

Comments

(1) Delay introduced after a) no agreement reachable with initial partner organisation and b) decision to use PDMs as an opportunity for the Togo PNLN to experience electronic data collection at scale in preparation for the Togo 2020 campaign

(2) Higher proportion of spares requested by implementing partner as mitigation against absent households
