GENERAL INSTRUCTIONS

Fill out section A and B of this form before you start your monitoring duties.

For the school that has been randomly assigned to you, you need to firstly visit the commune health center that has responsibility for the school.

At the commune health center:
(i) Request to speak with the head of the commune health center (or the senior commune health worker in charge at the time of your visit). Fill out section C of this form as completely as possible.
(ii) Randomly select two class lists from the assigned primary school (see random selection guide below) and take these lists to the school.
(iii) If the assigned primary school comprises satellite schools, randomly select one satellite school (see random selection guide below) and take all class lists corresponding to this satellite school.

At the primary school:
(i) Request to speak with the head teacher (or teacher in charge at the time of your visit). Fill out section D of this form as completely as possible.
(ii) After completing your interview with the head teacher, visit the two classes corresponding to the class lists randomly selected earlier at the commune health center.

In each of these classes:
  a) Randomly select two students (see random selection guide below).
  b) Interview these students one-by-one. Fill out sections E and F of this form as completely as possible.

If the primary school has satellite schools:
(i) Visit the randomly selected satellite school immediately after completing the interviews in the main school.
(ii) Fill out sections I-L as completely as possible.

HOW TO FILL OUT THIS FORM

- Most questions require you to circle the appropriate answer
- Some questions can have more than possible one answer; circle all answers that apply
- Some questions require you to write information; please write clearly and legibly

| Number obtained from your counting of the class lists |
| Number reported in commune reporting form (see question C.8) |

| Total # of Boys dewormed in commune | Total # of Girls dewormed in commune | TOTAL # of children dewormed in the commune |

Upon completion of the interview with the commune health worker, randomly select class lists following the system described below:

- for the school (main school) that has been assigned to you, randomly select two class lists
- additionally, in the event that the assigned primary school comprises a satellite school, all class lists for the satellite school will be selected
  - in the event that more than one satellite school is attached to the assigned primary school, randomly select one satellite school - all class lists from this satellite school will be selected.
- if the class lists are kept at the school, this random selection process (for both main and satellite school) will be conducted in consultation with the head-teacher when you visit the school.

Request permission to take these randomly selected class lists to the schools to perform the second phase of coverage validation (tell the commune health worker that you will return them afterwards).

- if the commune health staff do not permit the removal of the original class lists, request copies to be made.

**SECTION G: Use this section if necessary to expand upon comments from any of the sections above or to capture information not addressed.**

**SECTION G: Comments About Coverage Validation at Main School**
If the primary school does not have any satellites, the monitoring visit is complete.

→ Return to the commune health center to return the class lists (or return the class lists to the head teacher if they are stored at the school).
→ Provide this form to your supervisor

If the primary school has 1 or more satellite school:

→ Proceed to the satellite school that was randomly selected earlier. Fill our section I.
→ Speak with the senior teacher. Fill out section J of this form as completely as possible.

→ Randomly select two classes and speak with two children from each of these classes. Complete sections I-L of this form as completely as possible.

SECTION I: Fill in the following information about the satellite school selected for monitoring

<table>
<thead>
<tr>
<th>SECTION I: SATELLITE SCHOOL INFORMATION</th>
