### Where We Work Around the World

As an international aid Christian humanitarian organization, World Vision works in nearly 100 countries around the globe,

combating the root causes of poverty and responding quickly when disaster strikes.

We partner with communities to find lasting ways of improving the lives of children and their families while providing international disaster relief.

In addition to exploring our new interactive map shown above, we invite you to browse through each region listed below for more detailed information on our history and current work in each country.
